California Governor Election Dashboard Analysis

Interactive Dashboard Showing California Governor Election Results on June 4 and June 9, 2026

The vote totals are **leading-county vote totals**, not full statewide candidate totals.

Analytics for June 4, 2026

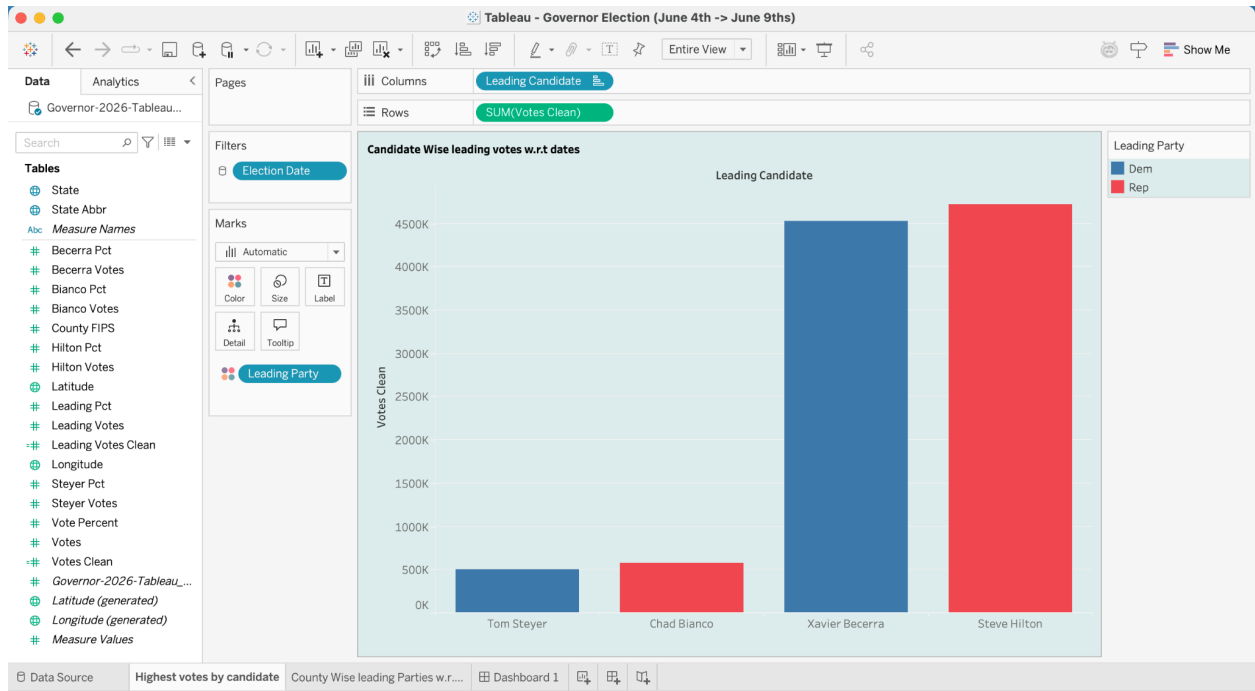

- **Steve Hilton** had the highest vote total with **2,360,448 votes**.
- **Xavier Becerra** was second with **2,266,787 votes**.
- **Chad Bianco** was third with **289,174 votes**.
- **Tom Steyer** had the lowest total among the four candidates with **251,364 votes**.
- Republican-leading counties covered a larger geographic area across California.
- Democratic-leading counties were more concentrated around coastal and urban regions.
- The map shows a clear geographic divide between the inland which is Republican dominant and coastal which is Democrat dominant

Analytics for June 9, 2026

- **Steve Hilton** remained the leading candidate with **2,360,448 votes**.
- **Xavier Becerra** remained second with **2,266,787 votes**.
- **Chad Bianco** stayed third with **289,174 votes**.
- **Tom Steyer** stayed fourth with **251,364 votes**.
- The ranking did not change between June 4 and June 9.
- The county-wise party pattern also remained the same.
- Republican-leading counties still covered most inland areas, while Democratic-leading counties stayed concentrated along the coast and in urban counties.

Analytics for All Dates Combined

- When **All** is selected, Tableau combines the June 4 and June 9 results.
- **Steve Hilton** had the highest combined total with **4,720,896 votes**.
- **Xavier Becerra** was second with **4,533,574 votes**.
- **Chad Bianco** was third with **578,348 votes**.
- **Tom Steyer** was fourth with **502,728 votes**.
- The combined view confirms the same overall ranking: **Steve Hilton first, Xavier Becerra second, Chad Bianco third, and Tom Steyer fourth**.
- The map pattern remains unchanged, showing Republican-leading counties in the inland and Democratic-leading counties in the coast

June 4, 2026 — Candidate-Wise Leading Vote Totals

- **Steve Hilton** had the highest vote total with **2,360,448 votes**.
- **Xavier Becerra** was second with **2,266,787 votes**.
- **Chad Bianco** was third with **289,174 votes**.
- **Tom Steyer** was fourth with **251,364 votes**.
- The bar chart shows that the main competition was between **Steve Hilton** and **Xavier Becerra**.

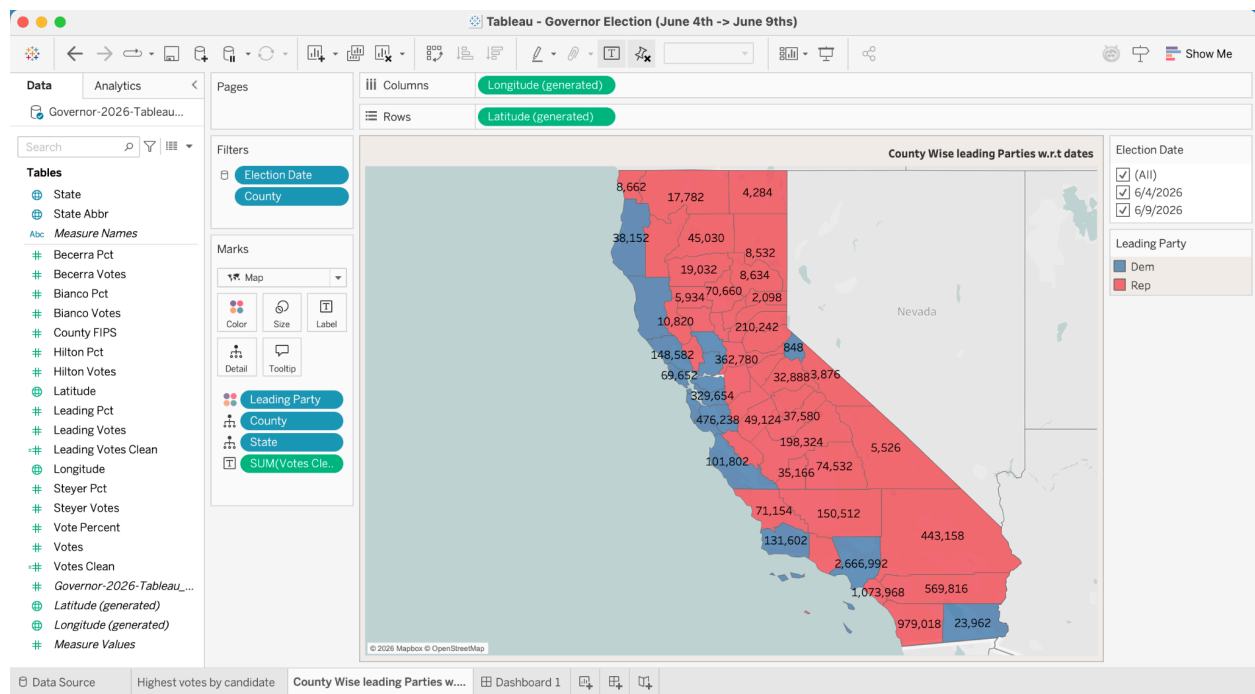

June 9, 2026 — Candidate-Wise Leading Vote Totals

- **Steve Hilton** remained first with **2,360,448 votes**.
- **Xavier Becerra** remained second with **2,266,787 votes**.
- **Chad Bianco** remained third with **289,174 votes**.
- **Tom Steyer** remained fourth with **251,364 votes**.
- The ranking did not change between June 4 and June 9.

All Dates Combined — Candidate-Wise Leading Vote Totals

- **Steve Hilton** had the highest combined total with **4,720,896 votes**.
- **Xavier Becerra** had **4,533,574 votes**.

- **Chad Bianco** had **578,348** votes.
- **Tom Steyer** had **502,728** votes.
- The combined view confirms the same ranking: **Hilton first, Becerra second, Bianco third, and Steyer fourth.**

Map Chart Insights

June 4, 2026 — County-Wise Leading Party Map

- The map shows **58 California counties**.
- **Republicans led in 41 counties**, while **Democrats led in 17 counties**.
- Republican-leading counties covered more geographic area, especially inland and northern California.
- Democratic-leading counties were dominant across coastal and urban areas (SF Bay, Silicon Valley)
- The largest county by total votes was **Los Angeles County with 1,333,496 votes**.
- Other high-vote counties included **Orange County with 536,984 votes**, **San Diego County with 489,509 votes**, **Riverside County with 284,908 votes**, and **Santa Clara County with 238,119 votes**.
- Republicans led in more counties, but Democratic leading counties had larger votes due to large populations

June 9, 2026 — County-Wise Leading Party Map

- The county map remained the same on June 9.
- **Republicans still led in 41 counties**, and **Democrats still led in 17 counties**.
- The highest-vote counties were still **Los Angeles, Orange, San Diego, Riverside, and Santa Clara**.
- **Los Angeles County remained the largest county by total votes with 1,333,496 votes**.
- There was no real county-level party shift between June 4th -> June 9th
- In the dashboard the June 4 and June 9 views show the same candidate ranking and county-wise party pattern

All Dates Combined — County-Wise Leading Party Map

- When **All** is selected, Tableau combines June 4 and June 9.
- The total number of displayed counties remains **58**.
- The county leadership pattern is still **41 Republican-leading counties** and **17 Democratic-leading counties**.
- The combined total across all counties is **10,335,546 votes**.
- REpublicans dominate geographic wise, while Democratic-leading counties are concentrated in higher-population coastal and urban regions.
- The All view combines both date records, so the displayed totals are higher than a single-date view.

Note: ChatGpt gave me this dataset, the one you gave was not showing June 9th data points
